Clarification for 2nd/3rd Place tiebreaker on 7 Team formats in the Clipped Pool of 4 (Pool Play Bracket) format.

2nd/3rd - Two teams will be 1-1.

Determining who finishes second and third is simple if they played each other in the first round; the winner of that game is 2nd and the loser 3rd.

If they didn't play in the first round, reference the "Tie breakers for round robins" in the Formats Manual.

-First use point differential against their common opponents (the two teams both lost to the clipped pool winner and both beat the clipped pool loser). Whichever team had the better point differential in these games finishes 2nd in the clipped pool.

-If the differential is the same, but the scores of the two games were different, the team that scored more total points in that game finishes 2nd in the clipped pool.

-If the scores were identical, a disc is flipped to determine placement.

-Note that the tie breaker between the 2nd and 3rd teams will not be used to eliminate teams, only to seed them going into elimination play.
