Inclement Weather Plan: Unless there is lightning- **GAME ON!** We follow the USA Ultimate lightning protocol as needed:

Use the Flash-to Bang method to determine when and if you need to send people to shelter. By the time the Flash-to-Bang count has reached 30 seconds, all individuals should be in a safe shelter location. **Appropriate shelter includes enclosed buildings and vehicles.**

*Flash-to-Bang: Begin counting when a lightning flash is sighted. Stop counting when the associated thunder is heard. Divide the count by 5 to determine how far away the lightning is. 30 seconds equals about 6 miles. Lightning has been known to strike from as far away as 10 miles, even under clear skies. *Action required at 30 seconds*

Wait at least 30 minutes after the last flash of lightning or sound of thunder before resuming play.

**All updates regarding weather response will be shared via the Groupme for team leaders to relay to their teams.*
